Overview

CARBRAVO CERTIFIED

Any approved vehicle that satisfies these two criteria is eligible for the CarBravo Certified Tier:

- Vehicles less than 10 model years old; and
- Vehicles less than 100,000 miles at the time of sale

Eligible CarBravo Certified Tier vehicles will receive coverage for 12 months or 12,000 miles (whichever comes first).

If the vehicle's bumper-to-bumper coverage under the Original New Vehicle Limited Warranty has already expired by time or mileage as of the date of the CarBravo transaction, then the CarBravo standard coverage becomes effective on the contract date of the CarBravo sale.

GM will cover repairs to the vehicle during the coverage period in accordance with the terms, conditions and limitations further outlined in this booklet.*

GM Vehicle Limited Warranty

LIMITED WARRANTY SUMMARY

CarBravo Certified and BravoBudget Certified

LIMITED WARRANTY APPLIES:

This limited warranty is for CarBravo vehicles that were manufactured by GM, registered in the United States, and normally operated in the United States, and is provided to the original and any subsequent owners of the vehicle during the warranty period.

REPAIRS COVERED:

The standard limited warranty includes repairs to correct vehicle defects related to materials or workmanship occurring during the warranty period, excluding slight noise, vibrations or other normal characteristics of the vehicle. Needed repairs will be performed using new, remanufactured or refurbished parts.

NO CHARGE:

Covered repairs including towing, parts and labor will be made at no charge.

OBTAINING REPAIRS:

To obtain covered repairs, take the vehicle to a GM dealer facility within the warranty period and request the needed repairs. Reasonable time must be allowed for the dealer to perform necessary repairs.

COVERED REPAIRS - COMPONENT EXCHANGES:

In the interest of customer satisfaction, GM may offer an exchange service on some vehicle components. This service is intended to reduce the amount of time your vehicle is not available for use due to repairs. Components used in exchange are service replacement parts that may be new, remanufactured or refurbished.

Remanufactured parts meet GM-approved service part requirements and are made from previously used components in a process that involves disassembly, inspection, cleaning, update of software and replacement of parts as appropriate, testing, and reassembly.

Refurbished parts meet GM-approved service part requirements and are previously used parts that are inspected, cleaned, tested and repackaged.

All exchange components used meet GM standards and are warranted the same as new components. Examples of the types of components that might be serviced in this fashion include engine and transmission assemblies, instrument cluster assemblies, radios, compact disc players and powertrain control modules.

LIMITED WARRANTY SUMMARY (CONT.)

CarBravo Certified and BravoBudget Certified

COVERED REPAIRS - RECYCLED MATERIALS:

Environmental Protection Agency (EPA) guidelines and GM support the capture, purification, and reuse of automotive air conditioning refrigerant gases and engine coolant. As a result, any repairs GM dealers may make to your vehicle may involve the installation of purified reclaimed refrigerant and coolant.

VEHICLE OPERATION AND CARE:

Please follow the maintenance instructions in the vehicle's owner manual. If you have questions on how to keep your vehicle in good working condition, see your GM dealer - the place many customers choose to have their maintenance work done. You can rely on your GM dealer to use the proper parts and repair practices.

MAINTENANCE AND COVERED REPAIR SERVICE RECORDS:

Retain receipts covering performance of regular maintenance. Receipts can be very important if a question arises as to whether a malfunction is caused by lack of maintenance or a defect in material or workmanship.

The "Maintenance Record" is provided in the maintenance schedule section of the OEM owner's manual for recording services performed. For GM vehicles, the servicing GM dealer can provide a copy of any covered repairs for your records.

Customer Assistance and Support

Your satisfaction and goodwill are important to your dealer and to GM. Normally, any concerns with the sales transaction or the operation of your vehicle will be resolved by your dealer's sales or service departments. Sometimes, however, despite the best intentions of all concerned, misunderstandings can occur. If your concern has not been resolved to your satisfaction, the following steps should be taken:

STEP ONE: Discuss your concern with a member of dealer management. Normally, concerns can be quickly resolved at that level. If the matter has already been reviewed with the sales, service or parts manager, contact the owner of the dealer facility or the general manager.

STEP TWO: If after contacting a member of dealer management it appears your concern cannot be resolved by the dealer without further help, contact the GM Customer Assistance Center by calling 1-800-222-1020. For Electric Vehicles, call 1-877-486-5846.

We encourage you to call the appropriate toll-free number in order to give your inquiry prompt attention. Have the following information available to give to the Customer Assistance Representative:

The Vehicle Identification Number (VIN). This is available from the vehicle registration or title, or the plate above the top of the instrument panel on the driver side which is visible through the windshield.

- The dealer's name and location.
- The vehicle delivery date and present mileage.

When contacting GM, remember that your concern will likely be resolved at a dealer's facility. That is why we suggest you follow Step One first if you have a concern.

STEP THREE: For all makes and models, consult your OEM owner's manual for additional Customer Assistance Information.

This program is available in all 50 states and the District of Columbia. Eligibility is limited by vehicle age, mileage and other factors. General Motors reserves the right to change eligibility limitations and/or to discontinue its participation in this program.
